# HELLO

FROM ADP

ADP Store Fixtures is a fast growing innovator in the Retail Shelving and Fixtures market. Over the last 15 years, our Australian developed S-Mart Shelving range of shelving has become the preferred choice of many FMCG retail chains with a focus on the Supermarket, Liquor and Convenience sectors.

## S-Mart Supermarket Shelving System

Our new S-Mart Supermarket Shelving System creates new opportunities for Supermarket retailing.

The innovative modular design provides the strength and overhead storage capacity of traditional Outrigger systems, but with added flexibility to easily adapt to changes in product merchandising needs. S-Mart Supermarket Shelving System is available with a complete range of options and accessories, including End Bays, a choice of Mesh or Volcano Punched Backpanels, optional Low-Height Gondolas and much more.

Every S-Mart Shelving component is designed in Australia, and manufactured to our specifications by our overseas partners. Integrating the latest European design trends with our rigorous quality and load testing requirements, ADP S-Mart Shelving is an attractive and functional system that is a sound long-term investment for your business.

Thank you for your interest, and we look forward to taking your Supermarket project to the next level with this tailored Supermarket Solutions range.

## ■ The ADP Team

## WHY ADP?

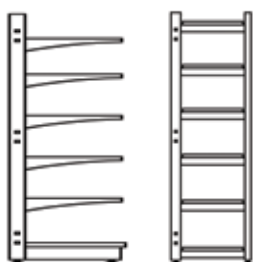

- 100% Australian owned and operated company
- Locally developed products for Australian retailers
- Products stocked in Australian warehouses for faster project turnaround
- Project support team available nationally
- Cost effective distribution system
- 5 Year product warranty and support

CANTILEVER		OUTRIGGER			
					
Overall Bay Load Rating (Qmax)					
For bay length:		914mm			
Shelf Depth (mm)		300	370	470	570
Cantilever (kg)		460kg	420kg	660kg	630kg
Outrigger (kg)				1000kg	930kg

<b>Individual Shelf Load Rating</b>					
For bay length:		914mm			
Shelf Depth (mm)		300	370	470	570
Cantilever Shelf Bracket (kg)		120kg	100kg	170kg	150kg
Outrigger Shelf Bracket (kg)				350kg	300kg

<b>Base Shelf Load Rating</b>					
For bay length:		914mm			
Base Shelf Depth (mm)		300	370	470	570
		220kg	220kg	320kg	330kg

## Weights & Capacities

### Overall Bay Load Rating (Qmax)

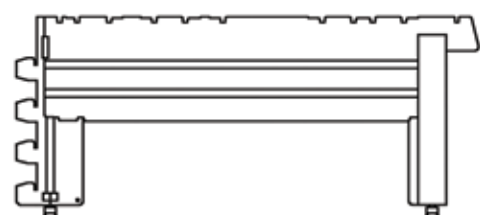

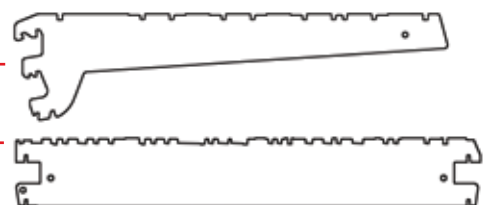

Maximum shelf loading consists of the sum of the base shelf weight plus total loading for all suspended shelves.

$$Q_{max} = (Q_1 + Q_2 + Q_3 + Q_4 + Q_5) + Q_6$$

Individual shelf load should not exceed the individual shelf load rating as listed below.

Double-sided bays will have approximately double the weight loading capacity.

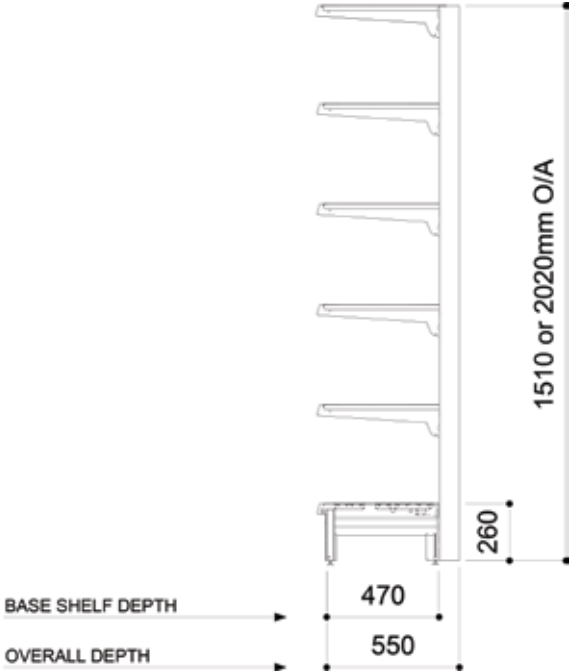

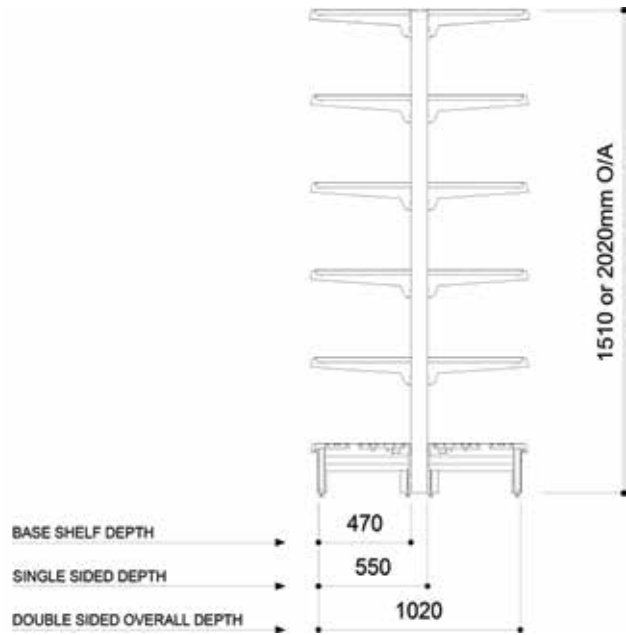

However weight must be relatively evenly distributed on each side.

# DATA STRIP

## CLIP-ON DATA STRIP WITH GRIPPER

ADP Clip-On Data Strip is the complete solution to your shelf ticketing needs. The innovative clip-on design enables fast and accurate attachment to the shelf lip. Compared to traditional adhesive data strip, ADP’s clip-on solution is a durable and hassle-free solution in all temperature environments.

### Benefits of ADP Clip-On Data Strip

- No adhesive for long-lasting attachment
- Fast and accurate installation
- Suits ADP S-Mart shelves and most other common shelving brands
- Full length ‘Gripper’ strip for specials and other promotional signage
- Now available in 32mm and 39mm ticket heights

CLIP ON DATA STRIP WITH GRIPPER					
Item Number	Description	Length (mm)	Label Height (mm)	Colour	
AP40421/09BL	Clip-On Data Strip with Gripper	900	32	Black	 AP40421/09BL
AP40422/09BL	Clip-On Data Strip with Gripper	900	39	Black	
					 AP40422/09BL

## DATA STRIP

### FLAT ADHESIVE DATA STRIP

The original and most economical shelf ticketing data strip. Supplied with industrial grade adhesive backing. Simply peel off and attach to the shelf front. Suitable for S-Mart Metal and Wire Shelves and most other brands of metal shelf.

Item Number	Description	Length (mm)	Label Height (mm)	Colour
AP527-26	Flat Adhesive Data Strip	900	26	Clear
AP527-26BL	Flat Adhesive Data Strip	900	26	Black
AP527-39	Flat Adhesive Data Strip	900	39	Clear
AP527-39BL	Flat Adhesive Data Strip	900	39	Black

### FLAT ADHESIVE DATA STRIP WITH GRIPPER

Flat adhesive data strip with the addition of a full length 'Gripper' strip for specials and other promotion signage. Supplied with industrial grade adhesive backing. Simply peel off and attach to the shelf front.

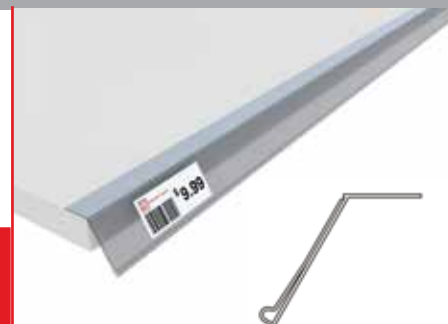

Item Number	Description	Length (mm)	Label Height (mm)	Colour
AP567-26	Flat Adhesive Data Strip with 'Gripper' Strip	900	26	Clear
AP567-26BL	Flat Adhesive Data Strip with 'Gripper' Strip	900	26	Black

### CLIP ON DATA STRIP WITH GRIPPER

Angled adhesive data strip for improved visibility. Data strip angled at 30 degrees. Adhesive tape on top lip for attaching to top of shelf. Suitable for flat metal shelves that do not have front shelf channel. Not suitable for use with ADP S-Mart Metal and Wire Shelves.

Item Number	Description	Length (mm)	Label Height (mm)	Colour
AP704-26	Angled Adhesive Data Strip	900	26	Clear

# SHELF DIVIDER SYSTEMS

## PLASTIC DIVIDERS

### Shelf Divider Systems

ADP's range of shelf dividers take your shelf presentation to the next level. Your store upkeep is made easier with products kept neatly in their allocated bays. The divider rails insert into the unique channel in the S-Mart shelf. This ensures a longer lasting solution and superior accuracy of installation compared to adhesive rail systems.

### DIVIDER RAIL

Item No.	Description	Length (mm)
AP733	Divider Rail Front	914
AP742	Divider Rail Rear	914
AP743	Clip for Rear Rail	

- Front rail inserts into groove in S-Mart shelf
- Rear rail is retained on wire with clips

# SILVER GONDOLA MOVING SKATES

## MAKE RE-FITS A BREEZE WITH SPEED SKATES

Speed skates are a revolutionary new system for moving your shelving fixtures and displays. Get your store projects completed in less time, using less staff for huge cost savings every time.

Speed skates are a new gondola moving system distributed by ADP STORE FIXTURES that will enhance efficiency on your

store upgrade projects, allowing you to move your heavy store fixtures safely in less time than you could imagine!

Using speed skates, you can move a fully loaded shelving gondola 360°, anywhere in your store! Simply secure the unit place an speed skate under each gondola leg (using the skate lever); and the unit is ready to move.

Number of Double sided shelving units	1	3	5	11	15	17
How many skates do I need?	4	8	12	24	32	36
Maximum Weight in KG - Silver Skates	3,632	7,264	10,896	21,792	29,056	32,688

The use of Speed Skates can enhance your store efficiency considerably by.

### REDUCING YOUR BUDGET - SAVE ON TIME

Besides being time efficient, you will mobilise fewer personnel only 3-4 persons are required to move a 10 bay gondola row.

### CHANGING THE LAYOUT OF YOUR STORE MORE FREQUENTLY

A regularly updated store provides interest for your customers. Speed skates will enable you to do this more often, minimising effort required to complete these changes.

### NO NEED TO CLOSE YOUR STORE

Speed skates are so fast and easy that you will be able to change your store layout in a few hours, with no disruption for

your customers, ensuring that you do not lose any sales when completing your project!

### ENHANCING THE SAFETY OF YOUR STAFF

No strenuous lifting is required when using speed skates. The skate lever allows easy lifting of shelving gondolas and other store fixtures.

### IMPROVING STORE HYGIENE

By moving fixtures easier, you can keep your store impeccably clean by removing rubbish and dirt trapped underneath fixtures.
